

Dear 13 JR cast,

Let me repeat what the casting team said at the end of class this week: You ALL made casting this show difficult. Sincerely. You showed great courage in trying new things or putting yourself out there on the spot. We noticed so much respect and camaraderie amongst the cast, so we're confident that this is going to be a rewarding and exciting semester!

Casting this show was a challenge—there is so much talent in this group. You may not have received the part(s) you wanted, and feeling disappointed is okay. Casting is a puzzle and we need to fit you all together to complement each other's strengths. You each were placed in a role that will benefit the show and highlight your many talents; as well as challenge each of you. Feel proud of yourselves and your castmates because together you will make a wonderful show.

Please read the Cast List below carefully, as some of you are listed more than once. You'll see the roles you've been cast in and the division of the solos in the opening number. I have provided the Ensemble with character names to help you start to think about your character, as all characters need to be fully realized to help the audience feel part of the world we create. Be aware that if your character has a typically male presenting name, you'll play the character as a male. This has to do with choreography and scene work.

Please see the updated schedule and mark dates and times in your calendar. As you can see we have a short time period to produce this show. It is VERY important that:

- You come to every class and/or rehearsal with your script and a writing utensil.
- **If you are going to miss class, please call the desk at MoCo and let us know as far in advance as possible.**
- You practice lines and review blocking at home to reinforce what we worked on in class.

Please remember we have lots of resources available for this show. You can access them directly on our [Google Drive](#) or on your Dance Studio Pro account by clicking 'Files' then 'Class Files' or 'Music Files'.
